

# MEASURING TOOLS DYNAMOMETERS

- It can be used for measuring force of micrometers, depth micrometers, dial test indicators, inside micrometers, indicators, micrometer heads and optical instruments (optical meters, contact interferometers) and other force measurement verification
- High precision, wide application, reliable structure, easy to operate

## SPECIFICATION

Code	ISF-DGD15	ISF-DGD50
Measuring range	0~15N	0~50N
Resolution	0.01N	
Accuracy	<4N: $\pm 0.01N$ ; $\geq 4N$ : $\pm 0.5\%$	
Dimension	230×220×310mm	
Weight	10kg	

ISF-DGD15

## STANDARD DELIVERY

Main unit	1pc
Disk	1pc
Rod	2pcs
Clamping disk	1pc

disk (included)

rod (included)

clamping disk (included)
